SOSU NASA Oklahoma Space Grant Consortium Awards

Award Information:
The SOSU NASA Oklahoma Space Grant Consortium (OSGC) awards are intended to promote the education of students at all levels by supporting enrollment, encouraging participation in research, and providing other educational opportunities. The program seeks to enhance knowledge and skills required by NASA employees from diverse fields, including any area of science, mathematics, engineering, technology, geography, journalism, communications, accounting and general education.

MOST MAJORS ARE ELIGIBLE!
Past awards have ranged from $100 to $1000, covering tuition waivers, books, aviation flight costs or student travel to educational meetings.
Over 100 student awards were made from Spring 2003 to Spring 2008.

Eligibility:
➔ Undergraduate student.  ➔ Cumulative grade point average (GPA) of 3.0 or higher.
➔ U.S. citizen.  ➔ Must have attended SOSU full-time for at least one semester.
➔ Currently enrolled full-time at Southeastern Oklahoma State University and in good standing.
➔ Willingness to participate in research or service projects related to the SOSU NASA OSGC program goals (including scientific research, program support, webpage development, tutoring, and education projects).
➔ Submit completed application materials, including a brief essay (typed, max. 200-300 words), required NASA forms, and 3 OSGC faculty evaluation forms. Instructions are provided with application packets.

Selection Criteria: Award selection criteria are dependent upon NASA mandated guidelines and input from an interdepartmental SOSU NASA/OSGC Scholarship Advisory Committee.

All awards are subject to review by the SOSU financial aid office. Individuals from groups which are currently underrepresented in science, mathematics, engineering, technology, and geography are especially encouraged to apply. While GPA and recommendations are weighted heavily in the award process, evidence of participation in past or current service projects is also taken into consideration.

Teaching assistants, tutors, student researchers, pre-service teachers, and campus or community volunteers are especially encouraged to apply.

Application packets available from Dr. Paiva (S216) or Sandy Kirven (S208).

Current Application Deadline: 5:00 PM, Thursday, February 26, 2009.
Awards are scheduled to be announced before Spring Break 2009.

Contact Dr. Nancy L. Paiva, S216, x2324, npaiva@se.edu for further information.
Refer to “NASA Space Grant Awards” in your inquiry.
